

Q] I want my wedding to be unique, memorable and entertaining for my guests. What can I do to make my big day stand out?

A] I think it's so important to put your fingerprint on a party, especially a wedding. Recently, I've had a professional dance couple perform during the reception, at another wedding we brought in Broadway singers to sing during dinner. We've also lined the entry hallway to the cocktail hour with violinists. Try thinking outside the box of ways you can design your wedding to reflect your personality. But most importantly, make your wedding entertaining for all your guests.
